Pre-lecture Survey – Do not write your name!!!

1) In what grade did you first formally learn about drugs and alcohol? How was the information presented to you (lecture, video, skit…etc) did you think it was effective?

2) Why do you think young adults (high school/college) use drugs and/or drink?

3) Please write what you already know about how drugs and alcohol affect the human brain and body (bullet points are fine).

4) What would you like to know about drugs/alcohol and their affects on the human brain and body?

5) If you, a friend or a family member were struggling with drug and/or alcohol addiction, would you be willing to contact any outside resources (i.e. counselor, rehab clinic…etc) for help? Why or why not?
