FACULTY FOR UNDERGRADUATE NEUROSCIENCE

Start

Welcome

FUN as an organization has grown by leaps and bounds. To support new initiatives (e.g., workshops and equipment loan programs), continue our sustaining support for the undergraduate travel award program as well as JUNE (the Journal of Undergraduate Neuroscience Education), the executive committee of FUN will need to attract funding beyond what is obtained via the annual dues of our membership. To help us make our strongest argument for assistance to likely funding agencies, we need more detailed information about the FUN membership and their activities.

In addition, some of the questions will ask you to describe some of the equipment and supplies you use in your lab. You might want to gather that information before starting this survey.

Your response to this survey is valuable to us. In order to encourage your participation, FUN will randomly select one complete survey to win an iPod Nano (1st Prize) and one complete survey to win an iPod shuffle (2nd Prize). Only one survey per member will be entered into the drawing.
