

## SUPPLEMENTARY MATERIAL 5

Thank you for taking the time to answer this brief survey! It should take about 10 minutes to complete.

The purpose of this survey is to collect information about your experience in the Neuroscience Learning Community. This LC consisted of Brain and Behavior (PSY 415), the Neuroscience seminar (NEU 200), and the community-based learning course (LC 351).

The data we collect will be used in a follow up study to Yu et al., 2013. Your responses are completely anonymous and completely voluntary. There is no penalty for not participating in this survey.

Please try not to provide information on open response questions that would provide personally identifiable information.

Thank you!

1. Multiple Choice: What year did you take this Learning Community?

- Fall 2016
- Fall 2017
- Fall 2018
- Fall 2019

2. Multiple Choice: What was your major when you took this Learning Community?

- Neuroscience
- Biology
- Psychology
- Education
- Health Science
- Undeclared/Other

3. Multiple Choice: Did you change your major after taking this Neuroscience Learning Community?

- Yes
- No

4. Multiple Choice: If you did change your major what did you switch to?

- Neuroscience
- Biology
- Psychology
- Education
- Health Science
- Other
- Did not change majors

5. Multiple Choice: At the time that you took this Learning Community what career path or post-graduate plans did you have?

- PhD Program (Neuroscience, Biology, Psychology)
- Master's program (Neuroscience, Biology, Psychology)
- Medical School (MD or DO)
- Allied Health Program (Nursing, Physician's Assistant, Pharmacy, Occupational Therapy)
- Employment in scientific field (research assistant, research technician)
- Education
- Volunteering/Service
- Other

6. Open response: Name one strength describing how the three courses of this LC seemed integrated.

7. Open response: Name one weakness suggesting disintegration between the three courses of this LC.

8. Open response: Please give a specific example of an assignment, project, presentation, or activity that asked you to synthesize ideas from the different courses or perspectives within the LC.

9. Multiple Choice: At Stonehill LCs are typically a second-year requirement. Do you feel that sophomore year is the best year to take this learning community?

- Definitely yes
- Probably yes
- Might or might not
- Probably not
- Definitely not

10. Open response: Please explain why you feel that this LC should or should not be taken in the sophomore year.

11. Open response: Did this experience cause you to reflect more deeply on the importance of neuroscience as it relates to the world around you? If so, how?

12. Multiple Choice: Would you recommend this Learning Community to other students?

- Definitely yes
- Probably yes
- Might or might not
- Probably not
- Definitely not
